

**Press Release**

**Hopewell Holdings Limited's First Sustainability Report  
Achieves Global Reporting Initiative Application Level B**

*Underlines the Group's Commitment towards Sustainable Development*

**Hong Kong, 11 October 2011** – Hopewell Holdings Limited (“Hopewell Holdings”, “HHL”; SEHK: 54) today announced the release of its first Sustainability Report 2010/2011 (“the Report”), reflecting its commitment to a high degree of sustainability in its operations.

Hopewell Holdings is the pioneer among Hong Kong listed conglomerates to issue a sustainability report. The Report, entitled “Hopewell Focuses on Sustainability”, is written according to the Global Reporting Initiative (GRI) sustainability report G3.1 framework and was checked and concluded by GRI for fulfilling the requirement of Application Level B. The Report provides a comprehensive account of Hopewell’s sustainability framework, management approach and accomplishments in addressing environmental, social and governance issues during the year and highlights areas where Hopewell wants to improve in the future.

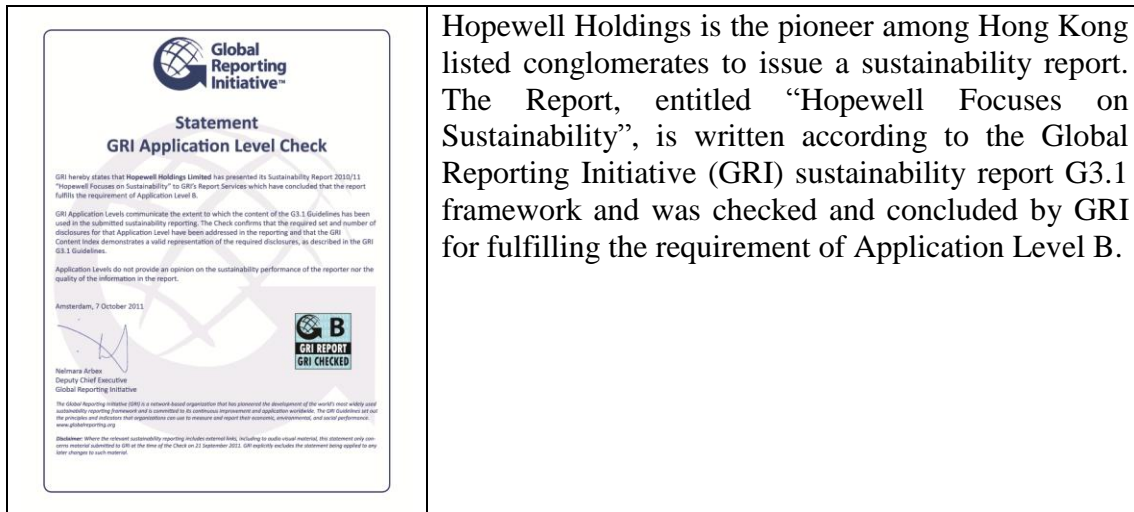

“Publishing this annual sustainability report comes as part of the Hopewell’s evolving strategy to integrate sustainability values into its core business,” said Mr. Thomas Wu, Managing Director of Hopewell Holdings Limited. “This is also the first time we established an independently reviewed stakeholder engagement process and we will continue to enhance engagement with our stakeholders through establishing a formal stakeholder engagement strategy.”

To strengthen the Group’s management efforts in promoting sustainability, HHL and its subsidiary, Hopewell Highway Infrastructure Limited, established a formal Sustainability Steering Committee to set future directions and formulate initiatives related to sustainability issues across the Group. The Report will serve as a benchmark for monitoring the development and progress of the Group’s corporate sustainability program. It also reflects Hopewell’s long-term commitment in corporate sustainability. The Group would like to bring positive influence to the business sector and to drive the implementation of sustainability initiatives, in order to benefit stakeholders and the general public.

The Sustainability Report 2010/2011 is available in English and Chinese at the Group’s website. Hopewell will publish a Sustainability Report every year in future to track the progress of its corporate sustainability programs.

### **About Hopewell’s Corporate Sustainability Program**

Hopewell Holdings Limited (“HHL / the Group”), the Hong Kong-based group, was listed on the Stock Exchange of Hong Kong in 1972. The Group is active in the fields of property development and investment, highway investment in infrastructure projects, power, hotel & hospitality and other businesses. HHL believes promoting sustainability and achieving long-term business growth are equally important. It devotes substantial resources to promote sustainability through corporate governance, environmental protection, community investment and workplace practices and continues to enhance engagement with various stakeholders.
